

The Oneness Blessing

"Anything, when fully experienced, is pure joy and bliss."

The Oneness Blessing (Deeksha Blessing) is a phenomenon sweeping the globe, awakening millions. It is a transfer of Divine Energy that has proven to be the fastest growing spiritual phenomenon in living history. This non-denominational blessing aligns awareness with the true nature of Being, ultimately resulting in conscious union with the Divine.

Facilitator:

Biana Mavasheva

Biana has spent the past years helping and healing others through various organizations such as CHIP (Children of Incarcerated Parents), provided healings and guidance at Universal Health Medical Center, and also staffed President Obama's campaign and worked for his OFA Chicago branch.
